

## HYBRID BIKE

Per week: \$180.-

Hybrids bikes are a cross between a mountain bike and a road bike. They have a relaxed riding position and are great for beginners and intermediate riders.

A typical model is the Trek 7.3 FX with Shimano components and high-pressure road tires for better cycling efficiency than your typical hybrid.

## ROAD BIKE

Per week:\$270.-

Our road bikes are a racing style bike with drop handlebars. The road bikes are faster bikes than the hybrids with a less upright riding position and will be enjoyed by intermediate and experienced riders. A typical model is the Émonda ALR 5 with aluminum frame, carbon forks, and Shimano 105 components.

## E-BIKE

Per week: \$330.-

Our eBikes are designed to give you a little extra assistance when climbing hills. The ride position is very similar to our hybrids. We typically rent iZip E3 bikes equipped with a 250W Shimano motor. If one rider in a couple is stronger than the other, an E-bike can be a great choice for the less-strong rider. E-BIKE
